Response under 37 C.F.R. §1.116 Attorney Docket No. 020262

Serial No. 10/086,729

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the

application:

1. (Canceled)

2. (Currently Amended) The method of peeling a semiconductor chip according to claim 1

A method of peeling a semiconductor chip, comprising the steps of:

peeling a semiconductor chip adhered to a tape from said tape by a peeling device including

a plurality of displaceable contact members arranged in an order from an outer circumferential

position to a central position all being housed inside a stationary contact member,

wherein the plurality of displaceable contact members are operated and displaced relative

to each other so that the semiconductor chip is successively peeled off from the tape from the outer

circumferential position thereof toward the central position, wherein the plurality of displaceable

contact members are simultaneously moved, and then, an outermost displaceable contact member

in the plurality of displaceable contact members is stopped and the remaining displaceable contact

members are further moved simultaneously.

3-5. (Canceled)

2

Response under 37 C.F.R. §1.116 Attorney Docket No. 020262 Serial No. 10/086,729

6. (Previously Presented) A method of peeling a semiconductor chip, comprising the steps of:

peeling a semiconductor chip adhered to a tape from said tape by a peeling device including a plurality of displaceable contact members arranged one after another from the outside to the inside, wherein the plurality of displaceable contact members are operated so that the semiconductor chip is successively peeled off from the tape from an outer circumferential portion thereof toward a central portion thereof; and

wherein the plurality of displaceable contact members are simultaneously moved, and then, the outermost displaceable contact member in the plurality of displaceable contact members is stopped and the remaining displaceable contact members are further moved simultaneously.
